

WIRELESS WASTE EDGE

**WASTE EDGE WIRELESS
NOW:**

- Fully compatible With [TRASHMIZER Model 400 Usage/Security](#)

WIRELESS TRASHMIZER COMPACTOR MONITOR SYSTEM CUTS THE CORD!

No Telephone Connection Required.

The Wireless Modem Option is the perfect solution to waste compactor Monitor installations where conventional telephone service is unavailable or difficult to reach. The Wireless Option is an effective alternative to running telephone lines to a compactor Monitor.

Your TRASHMIZER Fullness Monitor can communicate with the national wireless infrastructure. This allows compactors to remotely communicate container fullness information by email, Internet or pager, without a phone line. One Wireless GSM Modem per TRASHMIZER Monitor

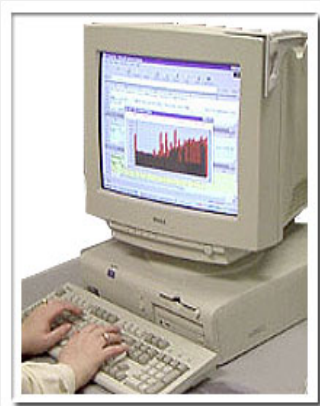

- All-weather antenna mounts on top of existing or new TRASHMIZER Monitor enclosure
- All monitoring functions are identical to phone-line enabled Monitors
- Operates in most North American locations
